

TIBCO Education 2008

TIBCO provides software and services that enable companies to orchestrate assets across their enterprise in real-time. The best way to maximize the benefits of your TIBCO investment is to become skilled in the applications and best practices for building world-class solutions using TIBCO software products.

At TIBCO Educational Services, we offer a range of learning programs to get you up-to-speed quickly on the latest TIBCO products and to help you achieve your professional goals. We also offer a variety of delivery options for your learning convenience.

Training Delivery Options

Instructor-Led Training: Our top-notch instructors deliver experience-based training at Technical Learning Centers located around the world. Alternatively, we can bring our expertise to your selected location through our private / customer-dedicated training.

- **Technical Learning Centers:** TIBCO offers public, scheduled classes in Technical Learning Centers located around the world. The current list of TIBCO courses is available on our website, along with the schedules for all of our Technical Learning Centers. For the latest information, please go to: www.tibco.com/services/educational/
- **Private / Customer-Dedicated Training:** Your organization may find it more cost effective to have private classes taught at your location. This can minimize employee travel expenses and time away from the office while giving staff the education needed to ensure smooth installation, development and ongoing maintenance. To arrange on-site classes at your location, contact your Regional Registrar.

Virtual Instructor-Led Training: This option brings instructor-led training directly to your computer. Using a web browser and telephone, you can attend live, instructor-led training through our virtual classroom. Classes are taught by our instructors in real-time and feature the full content available in our public classes.

On-Demand Training: Select from our wide range of self-paced e-Learning classes that are always accessible and ready when you are. On-Demand courses are pre-recorded sessions delivered via a web browser. These courses are highly focused and are typically delivered in 1 – 3 hour increments.

AT A GLANCE

TIBCO offers comprehensive, worldwide training to meet the needs of individuals and companies. Offerings include Boot Camps, Product Training, Learning Pathways, and Certification.

COURSES AND REGISTRATION

For up-to-date course information and schedules, visit www.tibco.com/services/educational/

We can tailor our curriculum to meet your requirements. For assistance in creating the right educational program for your company, please contact your Regional Registrar or email us.

Prepaid Training Account Program

Maximize your training budget with our Prepaid Training Account Program. Receive a volume discount when you prepay for training to be taken within a 12-month period. Prepaid training simplifies the training procurement and registration processes. Discounts are applied and tracked with your account ID. It's easy to put prepaid training to work for you: give us a call and we'll recommend a strategy to meet your particular educational requirements.

PRODUCTS AND PATHWAYS

TIBCO Boot Camps deliver a quick start for your TIBCO implementation and provide an intensive immersion into TIBCO architecture and integration technologies. Attendees design and implement focused integration solutions to solve real business challenges.

TIBCO Product Training offers in-depth knowledge and understanding about specific products. We offer training for specific course audiences and at varying difficulty levels. Through interactive lectures, discussions, and labs, you will quickly learn the skills needed to be productive with TIBCO products.

Learning Pathways provide training recommendations based on your job role and the TIBCO technologies you need to learn. Our pathways incorporate a blended curriculum of instructor-led and virtual classes. Choose one of the product suites (SOA, BPM, MDM, Predictive Business, or Spotfire), and match your job role to one of the examples below.

- Developer:** Create, test, and document software, including configuration of software components and writing scripts within a design interface as well as procedural or declarative programming. Associated Roles: Programmer, Software Engineer, Software Analyst.
- Administrator:** Install, monitor, and manage servers or other computer systems. Plan for and respond to service outages and other network issues. Some development for operational projects. Associated Roles: Support Engineer, Database/Network/ Security Administrator.
- Architect:** Define the structure and behavior of processes, information systems, and personnel in line with the goals and strategic directions of the organization. Associated Roles: Project Architects, Enterprise Architects.
- Business Analyst:** Analyze the business needs of an organization and its stakeholders to identify opportunities and propose solutions, mediating between the organization and its services providers. Associated Roles: Systems Analysts, Data Analysts, Functional Analysts.
- Business Manager:** Plan and direct co-workers who are usually are more skilled in sales, marketing, and finance than information technology.
- Project Manager:** Implement a successful development model as indicated by the architect and ensure each phase of development is successful.

TIBCO Certified Professional Program: enables you to obtain official recognition for your knowledge of TIBCO technologies that are in high demand in the marketplace. You may obtain certification in the following areas: TIBCO Service-Oriented Architecture, TIBCO BusinessWorks™, TIBCO Enterprise Message Service™, TIBCO Rendezvous®, TIBCO iProcess™ Modeler, and TIBCO Collaborative Information Manager™.

TIBCO Software Inc. (NASDAQ: TIBX) digitized Wall Street in the '80s with its event-driven "Information Bus" software, which helped make real-time business a strategic differentiator in the '90s. Today, TIBCO's infrastructure software gives customers the ability to constantly innovate by connecting applications and data in a service-oriented architecture, streamlining activities through business process management, and giving people the information and intelligence tools they need to make faster and smarter decisions, what we call The Power of Now®. TIBCO serves more than 3,000 customers around the world with offices in 40 countries and an ecosystem of over 200 partners. Learn more at www.tibco.com.
