

TIBCO Academy Training Program

TIBCO ACADEMY OBJECTIVES

Learn to assemble application components with key TIBCO products. Fully leverage the technology to innovate and demonstrate clear value to solve relevant business challenges. Get going fast!

THE PRIMARY DELIVERY PATTERN

- Instructor led classes by experienced staff
- Best practices sessions embedded in hands-on labs
- Knowledge assessment exams to validate learning
- Product-based solution and group exploration of alternatives

TIBCO ACADEMY SUMMARY

The TIBCO Academy is an accelerated, impactful training program focused on developing vital skills for technical new hires. This is the same program that TIBCO uses internally. Through a customized practical workshop led by veteran practitioners, students are immersed in learning key skills needed to develop a foundation and quickly apply technology. This is an intense 4 to 12 week TIBCO training curriculum specifically for professionals who have demonstrated academic excellence in college IT programs.

PHASE 1 - CORE TECHNOLOGIES

(TWO WEEKS)

- Process Automation and Integration (TIBCO BusinessWorks™ and Adapters)
